OTHER DATA

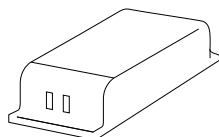

High Bay light fitting performance combined with the design of a unique decorative piece. Salt integrates driver and heat dissipation into the design of the fitting itself and achieves on the one hand an excellent thermal management and on the other hand the freedom to hang the fixture at any desired height. And to prevent glare, Salt disposes of a diffusor covering the light source.

Accessory for trimless cable

Wire Trimless Accessory is a collection of accessories for fitting tensioners and cables to Arkoslight luminaires suspended directly from the ceiling with any visible ceiling rose or fixings. This achieves a minimalist application with a visually tidy finish.

With Wire Trimless Accessory the items adjacent to the ceiling of the standard product (ceiling roses, fixings, driver boxes, etc.) are concealed by a simple recessed application.

Wire Trimless Accessory reduces the visual impact of the installation leading to extremely minimalist aesthetics. The wires come out of the ceiling material as a part of the structure. This detail creates a much purer, more essential layout, particular when several luminaires are fitted in an arrangement.
