PRODUCT	
Name	SIX XS 24V 17° 3000K WT
Reference	A3890011WT
Colour	Textured white
RAL	9016
Category	TRACK LIGHTS
LIGHT SOURCE	
Type	LED
Gross luminous flux	420 lm
Colour temperature	3000 K
Chromatic stability	MacAdam Step 2
Colour Rendering Index	CRI>90
Power	3,5 W
Current	400 mA
Efficacy	120 lm/W
LED lifespan	L90B10 >55.000h
Energy efficiency class	F
LIGHTING FIXTURE | PHOTOMETRIC DATA	
Lighting efficiency	90%
Light beam angle	17°
LIGHTING FIXTURE | ELECTRICAL DATA	
Power values of the system	4,12 W
Dimming	DIM options
Electrical insulation class	
OTHER DATA	
Sealing	IP20
Wireless control	Please Consult
Swivel angle	310°
Rotation angle	355°
Track type	Minimal Track
Weight	55 g
Packaged weight	85 g
Packaging dimensions	112 x 89 x 26 mm
Units per package	1
Materials	Aluminium / Polycarbonate

CE

Six XS 24V is a projector for the Minimal Track system that stands out for its lightness and elegance. Its body; disk looking, rounded shaped, encloses an innovative combination of reflector and lens. The combined action of both, allows Six to direct light rays with the maximum uniformity in a very small distance that, at the same time, has made possible its differential design-reduced and minimalist-.

High Chromatic LED

For commercial product showcasing.

Arkoslight offers, in some of its products, the possibility to incorporate a special LED designed to enhance the visual presentation of goods and products for commercial purposes.
This high-chromaticity LED is selected to highlight tones that encourage a positive psychological perception of the illuminated object.

The light source provides a more attractive and intense colour palette than a conventional LED. This is achieved through a specific LED configuration under a “special saturation parameter,” allowing colours and textures to appear more vivid within the visible spectrum.
The diode and its phosphor coating are carefully selected for each application.

Minimal Track

ARKOSLIGHT

Minimal Track is a 24V low-voltage lighting system designed to create minimalist and highly configurable installations.
On this page, you'll find the necessary components to configure your surface-mounted system.

Or use our online configurator to design your own custom product layout. The tool will guide you through the process and automatically calculate the required drivers and accessories. Start your configuration →

Track & accessories - Surface mounting

Configure the shape of your track, add end caps and the required accessories, and finish the setup with the conductive strip (rubber cable).

Accessory for trimless cable

Wire Trimless Accessory is a collection of accessories for fitting tensioners and cables to Arkoslight luminaires suspended directly from the ceiling with any visible ceiling rose or fixings. This achieves a minimalist application with a visually tidy finish.

With Wire Trimless Accessory the items adjacent to the ceiling of the standard product (ceiling roses, fixings, driver boxes, etc.) are concealed by a simple recessed application.

Wire Trimless Accessory reduces the visual impact of the installation leading to extremely minimalist aesthetics. The wires come out of the ceiling material as a part of the structure. This detail creates a much purer, more essential layout, particular when several luminaires are fitted in an arrangement.
