OTROS DATOS

Line Suspension is an elegant luminaire composed of a linear light which can combine direct and indirect light... Its pure volumes - a diffuser inserted in the aluminium core - and its miniaturised components make its integration into the architectural space extraordinary. The range consists of 3 versions: Line Suspension, Line Suspension Direct&Indirect and a Micro version. All these products are available in two lengths.

Wire Trimless Accessory is a collection of accessories for fitting tensioners and cables to Arkoslight luminaires suspended directly from the ceiling with any visible ceiling rose or fixings. This achieves a minimalist application with a visually tidy finish.

With Wire Trimless Accessory the items adjacent to the ceiling of the standard product (ceiling roses, fixings, driver boxes, etc.) are concealed by a simple recessed application.

Wire Trimless Accessory reduces the visual impact of the installation leading to extremely minimalist aesthetics. The wires come out of the ceiling material as a part of the structure. This detail creates a much purer, more essential layout, particular when several luminaires are fitted in an arrangement.
